

M&J Farms

Simmentals - Angus

2008 finds the fifth generation of Glasmans still on the land at Russell, Manitoba. We have developed an impressive young herd of Red & Black Simmental and Angus cattle based on the same principles and values that have shaped our breeding program since 1927. Visitors to the farm this summer have been impressed, stop by to see for yourself or check out our new website www.mjsimmentalangus.com.
