

# M&J Farms Forum Bound

Simmentals - Angus

**WAF Futurity Female;**  
the future looks  
bright with both dam  
and grand dam being Elite Angus Females

2009 finds the fifth generation of Glasmans still on the land at Russell, Manitoba. We have developed impressive young herds of red and black Angus and Simmental cattle based on the same principles and values that have shaped our breeding program since 1927. Visitors to the farm this year have been impressed, stop by to see for yourself or check out our new website [www.mjsimmentalangus.com](http://www.mjsimmentalangus.com).

## Exportable Red Angus Embryos Available
